System of Care in North Carolina From the Family Perspective

Proud partner and sponsor of NC Youth & Family Voices Amplified

System of Care (SOC) in North Carolina is not a program; it is a philosophy of how care should be delivered. The goal of this training is to explore authentic, practical ways to implement SOC cross-systems within agencies, programs, and communities. Participants will learn the aspects of the history of SOC federally and within North Carolina. Participants will also leave with an understanding of the importance of family and youth involvement, an understanding of the values of North Carolina SOC, and the value of cross-system family, youth, and agency partnerships.
